OPTIONAL 03	Key Lock Types	HTP Lock: 350 €	

2. Il prezzo del profilo inferiore senza soglia non include il profilo F e il profilo della rampa. Questi possono essere aggiunti senza differenza di prezzo, ma dovrebbero essere specificati nel progetto.

3. Se il profilo laterale standard per i pannelli di vetro non è desiderato, è possibile utilizzare un profilo laterale singolo

In alternativa. In caso di utilizzo di un montante laterale singolo, verrà detratto un prezzo di 50 € per sistema.

SLIDING SYSTEM S

GLASS SYSTEMS ► SLIDING GLASS SYSTEM S

Il nuovo sistema di vetro scorrevole di Palmiye è perfetto per qualsiasi edificio e pergolato, le sue ruote regolabili assicurano una manovra fluida di ogni pannello sia a sinistra che a destra. Il nuovo sistema di vetro scorrevole S fornisce aperture più ampie con 3, 4, 5, 6 opzioni di guida.

Le minuscole spazzole tra il vetro da 10 mm impediscono l'ingresso di polvere. Che sia aperto o chiuso non c'è perdita di spazio con questo sistema.

DOUBLE GLASS FOLDING SYSTEM

GLASS SYSTEMS ► FOLDING GLASS SYSTEMS

This protective and classy concept has been developed in order to provide maximum comfort to any living space.

With perfect water and heat insulation as well as being completely airtight it integrates indoor and outdoor living.

Each panel is enclosed with an aluminium frame and in turn connected to each other with strong

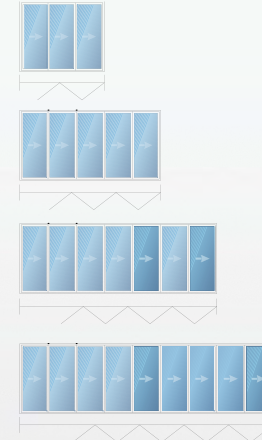

hinges. Small wheels along the top and bottom of the frame enables the panel to open and close in the accordion folding style.

The strength of this system enables it to carry heavy panels and the extra rubber surround makes the system completely air tight and waterproof.

STANDARD CONFIGURATIONS

Notes:

- This type of glass system is compatible with steel construction, not applicable to standard aluminum construction.

DOUBLE GLASS SLIDING SYSTEM

GLASS SYSTEMS ► SLIDING GLASS SYSTEMS

Buildings where insulation solutions have been prioritized, offers great comfort to its users.

This is an indispensable complement to energy saving efforts. The specially designed wheel system ensures smooth manoeuvring of each panel to both left and right and the tiny brushes between the glass panels prevents dust and water entering.

With this solution you maximise the use of the natural heat that daylight provides.

LIFT AND SLIDE SYSTEM

GLASS SYSTEMS ► SLIDING GLASS SYSTEMS

When closed this system offers perfect water, wind, heat insulation and in addition to this the huge panels enable an unbroken panoramic view.

In order that the panels can be so big and the view unbroken, the system consists of a lifting mechanism that first lifts the panel and then

slides it. It is a very light weight system and slides very easily and smoothly without much effort.

SECTION SYSTEM

GLASS SYSTEMS ► FIXED & ADJUSTABLE SYSTEMS

Dividing spaces with this section system creates a lighter and brighter atmosphere.

With numerous options, this way of architecture is a creative and stylish way to split up your working area. As well as different colour options, glass films with any text or design can be laminated directly onto the glass.

Frameless applications divide without excluding and provide a light, stylish and enjoyable area to work in.

PARAPET SYSTEM

GLASS SYSTEMS ► FIXED & ADJUSTABLE SYSTEMS

With its strong frameless panels the Parapet system provides uninterrupted views as well as a welcome wind shield too.

It is an ingenious form of glass fencing that can either be installed directly into the ground giving the appearance of the glass coming straight up from the earth or into a metal rail that runs along the bottom of the pane of glass.

SKY LIGHT SYSTEM

GLASS SYSTEMS ► FIXED & ADJUSTABLE SYSTEMS

The Sky Light system is a special glass roof that allows you to make full use of the natural light.

Using alternative double glazed glass, this system minimizes heat loss from the roof and the different coloured glass options create a beautiful effect.

The system will be priced according to the architectural project.

GLASS DOOR

GLASS SYSTEMS ► DOOR SYSTEMS

This beautifully designed panoramic glass door is an elegant feature in many buildings.

Flooding a room with natural light it creates a seamless flow between your various living arrangements.

This sturdy, frameless door has a special mechanism to stay fast in either the open or closed position. Different accessories are available to apply directly to the glass door.

PHOTOCELL DOOR

GLASS SYSTEMS ► DOOR SYSTEMS

This clean cut and stylish door system operates with a photocell sensor.

It has two or four configurations and a versatile design which allows for flexible application in many different settings. It also applies an intelligent OCS safety system, meaning that if an obstruction is in the way, it steps in to prevent clipping the person or object.

Security and access control are installed at the top of the frame. At the same time as applying excellent weather sealing qualities the frames are also reduced to the maximum so as to promote visibility.

ALUMINIUM DOOR

GLASS SYSTEMS ► DOOR SYSTEMS

This aluminium framed glass door provides a warm, stylish and functional door system.

Its robust, yet smooth operation results in a product you can rely on! The high performance seals protect the building from the elements of nature.

With a range of colours available from our powder coating or wood effect, this Aluminium Door System adds strength and substance to your existing building.
